PROFILE

BCA second-year student and aspiring Software Developer with hands-on experience building and deploying web applications. Interested in Python, web development, data-driven applications, and problem solving.

EXPERIENCE

Intern
IBase Electrosoft LLP | 25 May - 25 June

- Completed a one-month internship with exposure to practical software-development workflows.
- Add your actual internship tasks here, such as testing, coding, debugging, documentation, or web development.

PROJECTS

AI Sales Forecasting Dashboard
Live: ai-sales-forecasting-dashboard.streamlit.app

- Built an interactive dashboard for sales-data analysis and forecasting using Streamlit.
- Created a user-friendly interface to explore data trends and forecast sales performance.

Study Shelf
Live: study-shelf-gamma.vercel.app

- Built and deployed a study-focused web application with a responsive interface.
- Hosted the application on Vercel for online access.

EDUCATION

Bachelor of Computer Applications (BCA), Second Year
RCP IMRD
